Dear Emanuele,
the additional information you gave me this afternoon convinced me to participate in this project. If we develop this program in depth, it will be a win-win situation for all the parties of the consortium. In addition it will give us a wonderful opportunity to build bridges between various well known centers in Europe. It is obvious that, we from the cardiovascular center are keen to further explore this.

Thank you so much for this invitation.

Kind regards,
Marc

Dear Emanuele

This is an excellent and ambitious proposal.

I am more than happy to elaborate ... on the proposal further. I am actually receiving 2 fellows from Naples in fall and certainly value a continued effort in the future.

Let's discuss in more detail when meeting in Brussels

The CardioPaTh program is a:

- Vision
- Platform
- Network
- Contagious enthusiasm
- **Competition to the excellence**
- Commitment

- Despite **CardioPaTh** is very young and did not have enough time to be well advertised, yet it raised lots of interest
- Good number of applications (n=17) at this first call
- The candidates are evaluated on the basis of:
 - 1) academic curriculum
 - 2) scientific profile
 - 3) ability to design/defend innovative research project
 - 4) social skills as team players
- Selection process is highly competitive: **only 5** candidates (**30%**) are eventually selected for **CardioPaTh**
